IASCB-POL-006

Accreditation Fees & Charges

This document provides the basis for fees associated with application, assessment, surveillance, reassessment, scope changes and special activities.

Owner	Status	Review
IASCB Governance	Public policy	Annual or as required

Application

An application fee may be charged when an application is received and reviewed for completeness.

Assessment

Assessment charges cover preparation, assessment time, technical review, decision-making and reasonable administrative costs.

Additional work

Additional charges may apply for expanded scope, exceptional travel, repeated assessment activity, urgent work or follow-up of unresolved findings.

Payment

Fees are payable according to the invoice terms. IASCB may pause activities where agreed fees remain outstanding.

Transparency

A current quotation or fee schedule will be provided before chargeable work begins whenever the activity and scope can be defined in advance.

6. Quotation assumptions

A quotation shall identify assumptions about scope, locations, assessment mode, duration, travel, technical expertise and evidence readiness. Material changes shall be explained before additional work is undertaken where practicable.

7. Payment and disputes

Invoices shall identify the activity, amount, taxes, currency, due date and payment method. Fee queries shall be raised promptly. Financial administration shall not direct assessor findings or decisions, and technical status action shall follow due process.

8. Records and review

Quotes, approvals, invoices, credit notes, payment records, expenses and disputes shall be retained under financial controls. Fees shall be reviewed periodically against complexity and operating costs, with public information explaining the basis of charges.

This public document is provided for information. Applicants and accredited bodies should use the applicable IASCB requirements and written decision documents for the controlling terms.
